

Rolls and sheets with mat produced using continuous lamination process

COMMERCIAL VEHICLE

- Interior and exterior walls
- Roofs
- Doors

RECREATIONAL VEHICLE

- Roof
- Interior and exterior walls

To meet the ever-increasing market demands for more effective materials, Brianza Plastica has developed Elyplan High Finishing, a high-quality fibreglass laminate with a better appearance than standards products.

It is often used for outdoor surfaces thanks to the protective gelcoat, which ensures high resistance to UV rays, while the use of a mat gives them a beautiful aesthetic finish.

Elyplan High Finishing is Brianza Plastica's answer to a market increasingly demanding a laminate that combines the advantages of a continuous product with high aesthetic finish.

ELYPLAN®

HIGH FINISHING

Rolls and sheets with mat produced using continuous lamination process
